Huxtable Point Road/EHLR Construction to Begin April 22, Weather Permitting

Reclamation of Huxtable Point Road and East Horseshoe Lake Road (from North of Mission Park Drive to County Road 11) is scheduled to begin on April 22, weather permitting. The project will include installation of swing away mailbox supports where not currently present. There will be road access throughout the project, but if you have a concrete driveway, there will be a lack of access until the concrete cures. Any questions or concerns can be directed to Jon Auge (Town Board) at 651-335-6555, or Bryan Drown (Town Engineer) at 218-821-5242.
