Project Manager:

Mike Niemi

Cell: 218-820-9944

Superintendent:

Dave Susterich

Cell: 218-820-9909

Overview

Mission Township is undertaking a full depth reclamation of East Bass Lake Road from County Road 109 to Mission Heights Road in 2026. Full depth reclamation involves grinding the existing pavement and aggregate base together that is then used as aggregate base and placing new pavement on the reclaimed material.

As the roadway will be raised by approximately two inches driveways will be reconnected approximately 5 feet from the edge of road matching the existing material (Pavement, Concrete, Class 5). If you have a concrete driveway there will be a period where access is limited to allow the concrete to cure.

The project also includes installing swing away mailbox supports.

Dates

Competitive bids for the work were received, and the project was awarded to Anderson Brothers Construction from Brainerd, Minnesota.

Anderson Brothers schedule is to start the reclaiming on Monday, September 14th and estimates the project will be substantially completed in two weeks.

The above schedule is dependent on weather and subject to change.

Contacts

Contractor

Mike Niemi, from Anderson Brothers, will be the project manager and Dave Susterich is the Superintendent. Mike can be contacted at 218-820-9944 and Dave at 218-820-9909.

Engineer

Bryan Drown from Bolton & Menk is the project engineer. You may call Bryan at 218-821-5242 or e-mail him at bryan.drown@bolton-menk.com.

The Bolton & Menk on-site representative is Jesse Allen. You may call Jesse at 218-822-1342 with questions and concerns.
