MISSION TOWNSHIP NEWSLETTER

Fall Edition 2026

Welcome to the Mission Township semiannual newsletter. This newsletter will keep you up to date on the work of the town board and will assist you in being informed about your township.

The township is presently involved in a couple of significant projects that will assist in providing definition for how the township will choose the paths for the future of the township. First, we are in the process of developing a Comprehensive Plan for the township. Our two previous Comprehensive Plans aged out and thus the need to renew the plan. It seems like every city, county or township is in the throes of working on a plan or have recently developed one. This does not negate the importance of having a plan. The Comprehensive Plan provides a guide for future decisions on township business. Community members have participated in three meetings and provided their views and ideas for the township. Their input is processed by Region Five Development Commission, who is coordinating the work.
